

Hertz #1 Club Gold[®]

Hertz Gold Service Advantages

Hertz #1 Club Gold Service provides the best, fastest and most convenient rental car service available in the industry today. This unique service is available at no fee to all Compass Group employees, and can be accessed using the Hertz Link to Gold on the Compass Group travel page. The advantages of the service include:

- Pre reserved vehicle with no stopping at any counters
- Renters name appears in lights, and vehicle is ready in designated slot.
- At our major airports vehicles are under a weather protected canopy at both rental and return.
- Special membership benefits, and discounts are available to all members, in addition to the Compass Group contract rates and benefits.
- Upgrades based on availability, and special tiered Gold status based on usage.

At most major airports Gold Service customers are shuttled from the airport to the Hertz location where their vehicle is ready, and waiting. No need to go to the counter, the rental agreement is in the vehicle. Then just drive to the exit gate, show your receipt and you're on your way. At some airports that do not have shuttle service the Gold Service customer transaction may be handled at separate counter to avoid any lines, -- but still no waiting and no paperwork, just pick up your rental agreement and go.
